RE: Manassas Regional Airport (HEF)
FAR Part 139 Certification and Terminal Redevelopment Program Programmatic
Environmental Assessment (ID Number EAXX-021-12-ARP-1776086626)

Dear Mr. Rivera:

The Federal Aviation Administration has approved the Programmatic Environmental Assessment (PEA) and Finding of No Significant Impact/Record of Decision (FONSI/ROD) for the HEF Part 139 Certification and Terminal Redevelopment Program. Signed copies of the PEA and FONSI/ROD are enclosed.

This Federal environmental approval is a determination by the Approving Official that the requirements imposed by applicable environmental statutes and regulations have been satisfied by a FONSI/ROD; however, it is not approval of any other Federal action relative to the project proposal.

In compliance with U.S. Department of Transportation Order 5610.D and FAA Order 1050.1G, we require that your office make the final PEA available to the affected public and announce such availability through appropriate media in the area. The announcement shall indicate the availability of the document for examination and note the appropriate location of general public access where the document may be found. Please provide a copy of the announcement to this office when it is issued.

Finally, please direct your attention to the mitigation measures that were a condition of FONSI/ROD approval. You must implement these measures to meet the terms of the FONSI/ROD.

The process of making these environmental determinations is a partnership between yourself, as airport sponsor, and the other contributing parties, both public and private. We thank you for your effort and cooperation.

Please contact our office if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read 'S. Stafford', with a long horizontal flourish extending to the right.

Susan Stafford
Environmental Protection Specialist
Beckley Airports Field Office
